Extended information on the use of cookies

Use of cookies

The "Site" vibrowest.it uses **cookies** to make its services simple and efficient for users who view the pages of vibrowest.it.

Users who view the Site, will see minimum amounts of information inserted in the devices in use, which are computers and mobile devices, in small text files called "cookies" saved in the directories used by the User's web browser.

By disabling cookies some of our services may not work properly and some pages will not display them correctly.

There are **various types of cookies**, some to make your use of the Site more effective, others to enable certain features.

By analysing them in detail our cookies allow you to:

store your preferences

avoid re-entering the same information several times during the visit such as user name and password

analyse the use of the services and content provided by vibrowest.it to optimise the browsing experience and the services offered.

Types of Cookies used by vibrowest.it

Below are the various types of cookies used by vibrowest.it according to the purpose of use

Technical Cookies

This type of cookie is strictly necessary for the **correct functioning of certain sections of the Site.**
There are two categories: persistent and session cookies:

persistent: once the browser is closed they are not destroyed but remain until a preset expiry date of sessions: they are destroyed every time the browser is closed.

These cookies, always sent from our domain, are **necessary to correctly display the site** and in relation to the technical services offered, will therefore **always be used and sent**, unless users change the settings in their browser (thus affecting the display of the site pages).

Analytical cookies

Cookies in this category are used to collect information about the use of the site. vibrowest.it will use this information for anonymous statistical analysis in order to improve the use of the Site and to make the content more interesting and relevant to the wishes of users. This type of cookie collects anonymous data on user activity and how it arrived on the Site. Analytical cookies are sent by the Site itself or by third party domains.

Analytical cookies of third party services

These cookies are used to collect information on the use of the Site by users anonymously such as: pages visited, time of stay, origin of traffic, geographical origin, age, gender and interests for marketing campaigns. These cookies are sent by third party domains outside the Site, in our case by Google Analytics.

Cookies to integrate third party software products and functions

This type of cookie integrates features developed by third parties within the pages of the Site such as icons and preferences expressed in social networks in order to share site content or to use third party software services (such as map generation software and additional software offering additional services). These cookies are sent by third party domains and partner sites that offer their functionality between Site pages.

Profiling cookies

These are those cookies necessary to create user profiles in order to send advertising messages in line with the preferences expressed by the user within the pages of the Site.

We do not use profiling cookies on our Site.
vibrowest.it according to current legislation, is not required to ask for consent for technical cookies, as they are necessary to provide the requested services.
For all other types of cookies, consent may be expressed by the User in one or more of the following ways:
Through specific configurations of the browser used or the relative computer programs used to navigate the pages that make up the Site.
By modifying the settings when using third party services
Both of these solutions may prevent you from using or viewing parts of the Site.
Third party websites and services
The Site may contain links to other websites that have their own privacy policy which may be different from the one adopted by vibrowest.it and which are therefore not responsible for these sites.
